

The development and completion of this Corridor Management Plan has been challenging and rewarding for the Scenic US 441 Corridor Advocacy Group. The CAG itself is composed of volunteers that have donated countless hours for a cause and belief they feel is worthy. The eligibility and designation process has taken approximately 2 years to complete and has involved many community and agency representatives. The following is a list of individuals that have been an integral part of the Scenic US 441 and loop/spur roads eligibility and designation process. Thanks to their support and hard work the Corridor Management Entity is well on its way to preserving the natural and cultural integrity of this unique North Florida road.
