

CORRIDOR MANAGEMENT ENTITY

The CAG has established a Corridor Management Council or Entity (CMC), whose purpose is to serve as caretaker of the scenic corridor by ensuring the Action Plan is executed and that all corridor activities are monitored and implemented according to the CMP. A memorandum written by the University of Florida Conservation Clinic Graduate Student - Mike Schmidt and Clinic Director – Tom Ankersen that describes the FDOT CMC requirements and scenarios for establishing a CMC, through an agreement. This memorandum is provided in **Appendix B**.

The draft CMC Agreement is shown below and has been signed by all CMC members. The Town of Micanopy has decided not to sign the CMC Agreement at this time. However, the Town of Micanopy will continue to play a significant role in the implementation of the Corridor Management Plan and may ultimately become an official member of the CMC at some point in the future.
